Hello -

I would like to use few of your photos in one of my android application. However due to the nature of my application, I will not be able to include Creative Common license link below each photograph or include credits below each photograph. I will be crediting the photos to you in a separate about page for each photo that I would use. Could you please let me know if it is okay?

Thanks in advance.

Regards,
Aniruddha

Aniruddha: No problem. As long as you squeeze a credit in somewhere, we're happy.

Regards, Al
